Once clicked, you'll be displayed with an alert pop-up letting you know that payments won't be reversed and further payments for that container won't be done.

Alert ×

Stopping this request will not reverse any payments that have already been made. It will prevent orchestration from making any further payments on this container. Are you sure you want to stop this Drayage Orchestration Request?

YES
CANCEL

Once confirmed, you'll be able to see that the orchestration was stopped as shown in the image below.
